EQUIPMENT:

Synthetic soft-bristled brush or plastic spray applicator.

MIXING AT JOB SITE:

For light stains:

Mix Part B - Cleaner with water in plastic container. Use 1-gallon water for 1-gallon kit, 5-gallons water 5-gallon kit. For bulk pack see the label instructions.

For heavy dark stains:

Mix activator (Part A) in the water. Mix well. Then add Part B - Cleaner powder into the mix. Mix well. Use 1-gallon water for 1-gallon kit, 5-gallons water for 5-gallon kit. For bulk pack see label instructions.

Afterwash Solution:

Mix Part C container into water. For 1-gallon kit use 1-gallon of water. For 5-gallon kit use 5-gallons of water. For bulk pack see label instructions.

APPLICATION:

1. Apply prepared cleaning solution to dry masonry or wood surfaces.
2. Let set for 10 to 20 minutes. Reapply the solution.
3. Scrub the masonry or wood surface with stiff bristle synthetic brush.
4. Rinse off with available pressure. If you are using sponge or mop, change water frequently. For heavily darkened areas, use water pressure (400 to 600 psi with fan tip) to rinse the surface.

Note: Part C - Afterwash is not recommended for polished limestone, marble, travertine surfaces.
