**Application:**

1. Use brush or roller. Apply 10 to 15 mil. thickness of PRICE MASK to the surface to be protected.
2. PRICE MASK dries to the touch in approximately 60 minutes depending upon drying conditions.
3. Do not apply when rain is eminent.
4. It is important that a heavy application be made for thorough protection and for easy removal (stripping) of the mask.

**Removal (stripping):**

After the cleaning of the masonry surfaces, PRICE MASK should be removed as soon as possible. For outdoor use, removal is recommended within 15 days of application. For indoor use, 30 day removal schedule may be followed. If properly applied the coating will come off in large sections. It is possible to remove the coating in one sweeping motion from a simple pane of glass. The heavier the application, the easier it is to remove.

Read product label instructions for detail procedure.

**Coverage Rate:**

100 sq.ft. per gallon. Coverage will vary depending upon application and removal method.

**Note:**

Pre-test should be done on all non-masonry surface for the suitability of protection and removal.

**AVAILABILITY AND COST:**

PRICE MASK is available in two colors - (1.) White or (2.) Opaque.

Size: 5 gallon container.
